ZONE CHANGE WITH OVERLAY PROCESS

TECHNICAL ADVISORY COMMITTEE REVIEW

The Technical Advisory Committee (TAC) is composed of representatives of the County's Planning, Transportation, Drainage Review, Flood Control and Environmental Services departments. Other comments may be supplied by representatives from other County departments, fire district, school district, City or Town, homeowner's association, or other interested parties.

After a complete application is submitted and accepted by the Planning Department, staff will forward copies of the application to members of the TAC. Staff will then schedule the request for review by the TAC and notify the owner or authorized agent of the date and time.

Staff will provide the owner or authorized agent with written comments from any reviewing agency unable to attend the meeting.

POST-TAC REVIEW

Depending on the comments received at the TAC, the application materials (such as the Site Plan or Narrative) may need revisions. The owner or authorized agent must submit revised materials, reflecting the TAC comments, to the Planning and Development Department, which will forward the revised materials to the appropriate agencies. Once they are satisfied that the technical requirements have been met (more than one re-submittal may be necessary) and the Citizen Participation Plan has been satisfactorily completed (see Citizen Review Process), the request will be scheduled for public hearing by the Planning and Zoning Commission. Staff will also conduct the 300' mailing, legal ad as well as prepare a staff report. The owner or authorized agent will be required to post the site. Please note that compliance with comments from the TAC does not guarantee that the application will be supported or recommended for approval by staff. Staff will provide written and verbal recommendations to the Planning and Zoning Commission.

PLANNING AND ZONING COMMISSION

The Planning and Zoning Commission will hold a public hearing for all interested persons wishing to comment on the Zone Change with Overlay. The owner or authorized agent must attend this meeting, and will be asked to comment on the application, the staff report and/or any comments that are made during the public hearing. The Planning and Zoning Commission will make a

recommendation to the Board of Supervisors for approval or denial of the request. Their recommendation may or may not concur with staff's recommendation.

BOARD OF SUPERVISORS

The Zone Change with Overlay request will again be legally advertised prior to a public hearing before the Maricopa County Board of Supervisors. The Board of Supervisors will ultimately vote to approve or deny the request. Their action may or may not concur with the recommendation made by staff or the Planning and Zoning Commission.

POST-BOARD OF SUPERVISOR ACTIVITY

Once approved by the Board of Supervisors, the Zone Change with Overlay becomes effective 31 days after Board action and when any required conditions are met. The owner or authorized agent may then apply for a Zoning Clearance and Building Permit as long as the property is in compliance with the Maricopa County Zoning Ordinance.

AMENDMENTS

Any change or modification to an approval shall be considered an amendment. Staff shall determine whether changes constitute a Minor or Major Amendment according to MCZO Article 304.9. A Minor Amendment is an administrative process.

Planning & Development Department

ALL FEES ARE DUE AT TIME OF APPLICATION AND ARE NON-REFUNDABLE.

CITIZEN REVIEW PROCESS GUIDELINES

Purpose

Pursuant to State Law, the Maricopa County Board of Supervisors adopted a Citizen Review Process for Zone Changes (Section 305 of the Maricopa County Zoning Ordinance). There are three (3) basic purposes for a Citizen Review Process:

- Notifying citizens of the rezoning *application* and not just the public hearing.
- Informing citizens of the substance of the application.
- Providing citizens an opportunity to express issues or concerns prior to any public hearing regarding the application.

Public participation is an important component of successful planning. Citizens need and deserve ongoing communication regarding projects and issues that affect their communities. Through the Citizen Review Process, Maricopa County demonstrates its commitment to ensuring that owner or authorized agent pursues early and meaningful citizen input in applications for Zone Changes. Such participation will help an owner or authorized agent resolve concerns early in the process, and promote goodwill between the owner or authorized agent, County officials, citizens, property owners, and other stakeholders. While the Citizen Review Process may not produce complete consensus regarding specific applications, it will encourage owner or authorized agent to make sound investment and planning decisions by listening to and, where feasible, addressing the concerns of their neighbors.

Process

The Citizen Review Process has five (5) requirements that are discussed below:

1. Requirement for a Pre-Application Meeting
2. Requirement to develop a Citizen Participation Plan
3. Requirement to notice adjacent property owners upon application
4. Requirement to post properties upon application
5. Requirement to complete a Citizen Participation Results Report

1. *Requirement for a Pre-application Meeting / Pre-application Meeting Form*

Prior to submitting a formal application, the owner or authorized agent is required to participate in a pre-application meeting with Planning and Development Department staff. Pre-application meetings allow owner or authorized agent to become familiar with the planning process, and also enable the owner or authorized agent to obtain guidance with the requirements of the Citizen Review Process. At the pre-application meeting, the *Citizen Participation Plan* will be discussed between staff and the owner or authorized agent.

At the pre-application meeting, staff will provide the owner or authorized agent with a copy of the *pre-application meeting form*. This form is used to verify that the pre-application meeting has occurred. **Please do not discard or misplace this form – it is a required submittal with your application.**

2. Requirement to develop a Citizen Participation Plan

The Citizen Participation Plan discusses the extent and procedure the owner or authorized agent will take to complete the Citizen Review Process. Staff and the owner or authorized agent will discuss the extent of the Citizen Participation Plan at the pre-application meeting. At a minimum, the following information should be submitted as a part of the Citizen Participation Plan, using the headings and format shown below:

Title Page

- Include the project name, general location and vicinity map

Parties Affected by Application

- Discuss which residents; property owners, interested parties, political jurisdictions and public agencies may be affected by the application.

Notification and Information Procedures

- Discuss how those interested in and potentially affected by an application will be notified that an application has been made.
- Discuss how those interested and potentially affected parties will be informed of the substance of the change, amendment, or development proposed by the application.

Response Procedures

- Describe how those affected or otherwise interested will be provided an opportunity to discuss the owner or authorized agent's proposal with the owner or authorized agent and express any concerns, issues or problems they may have with the proposal in advance of the public hearing.

Schedule for Completion

- Describe the schedule for completion of the Citizen Participation Plan.

Status Procedure

- Describe how the owner or authorized agent will keep the Planning and Zoning Division informed on the status of their citizen participation efforts.

The level of citizen interest and area involvement will vary depending on the nature of the application and the location of the site. The target area for early notification will be determined through a coordinated effort of the owner or authorized agent and staff. The Planning Director shall resolve any disputes that may arise while arriving at the target area. At a minimum, the target area of the *Citizen Participation Plan* shall include the following:

- a) real property owners within 300' of the proposed Zone Change request;
- b) the head of any homeowners association within 300' of the proposed Zone Change request;
- c) other potentially affected citizens in the target area who have requested that they be placed on the routing list maintained by the Planning Department.

Owner or authorized agent may submit the *Citizen Participation Plan* for review as early as the pre-application meeting, but must submit it with the formal application.

3. Requirement to Notice Adjacent Property Owners Upon Application, and

4. Requirement to Post Properties Upon Application

The owner or authorized agent shall send notice (see example notification letter) by first class mail to each real property owner as shown on the last assessment of the property within 300' of the proposed amendment or change. The notice by mail shall include, at a minimum, description of the area of the proposed Zone Change, a general explanation of the nature of the proposal, the name of the owner or authorized agent, and contact information for the owner or authorized agent.

The postings shall remain in place for the entire application period. Each notice shall be a minimum of six square feet in area unless combined with the public hearing notices. The posting shall include, at a minimum, a brief description of the area of the proposed Zone Change, a general explanation of the nature of the proposal, the name of the owner or authorized agent, and contact information for the owner or authorized agent. **A copy of the notice as well as a signed and notarized "Affidavit for the Citizen Review Process" along with photographic evidence demonstrating proof of posting and a map illustrating posting sites shall be submitted to staff within 30 days of application submittal.**

DRAINAGE REVIEW REQUIREMENTS FOR PRECISE PLANS INCLUDING SPECIAL USE PERMITS

A detailed drainage report with respect to hydrology and hydraulics in conjunction with grading, drainage and paving plans may need to be submitted. The final drainage plan needs to be signed and sealed by an Arizona Registered Professional Civil Engineer and should address the following:

1. **Offsite Hydrology** – Need to determine the quantity, the entrance and exit points, and how the flow is to be routed through the site.
2. **Onsite Hydrology** – Need to show how the flows are to be routed to retention basins.
3. **Onsite Retention** – Need to retain water for the 100-year, 2-hour storm for the site, including adjacent right of way. Determine volume needed and the size and location of basins.
4. **Retention Disposal** – Provide testing results in conformance with Standard 6.10 for disposal of total ponding volume within 36 hours.
5. **Onsite Hydraulic Calculations** – Need to show hydraulic analysis for any channels, culverts, storm drains, or street drainage.
6. **Cross Sections** – Need to show perpendicular cross-sections through the site indicating property lines, swales, retention areas, finished floors, and street details.
7. **Finished Floor Elevations** – Need to show finished floor elevation and certification note.
8. **Topography** – Need to show natural and proposed contour elevations or spot elevations.
9. **Dry Wells** – If applicable, need to submit a copy of the dry well registration before final drainage clearance of a permit.
10. **Floodplains** – Need to show the delineated floodplain boundaries if the site is within a Federal Emergency Management Agency’s (FEMA) special flood hazard area. Will also need to apply for Floodplain Use Permit.
11. **Erosion Setbacks** – For washes and other watercourse channels an erosion setback will need to be determined, which meets Arizona State Standard 5-96.

Since complex drainage systems may require more detailed information, a meeting should be arranged with personnel from Drainage Review.
